TO BUFFET

**SKYRA**<sup>TM</sup>  
Professional Tableware

# *the* HISTORY OF SKYRA

---

Skyra Professional Tableware is an off-shoot of the 57-year old manufacturing conglomerate, the Stalwart Group.

In 1957, Rajinder Paul Khosla started a small electroplating shop with his 4 brothers in the rural town of Moradabad, India. Most of the orders received were for electroplating on sports trophies and the occasional home decor pieces. His vision was to travel abroad and soon after, he packed several trunks of products on to a ship to the Middle-East. He was delighted with the market response. Immediately upon his return, he formally launched Stalwart Electroplating Works Pvt. Ltd. – one of Moradabad's first export houses to the world.

The second generation of brothers entered the business in the 1980's and 1990's and expanded the breadth of Stalwart's flourishing EPNS business to manufacturing of Leather, Wrought Iron and Glass products for Gift and Retail markets. In 1991, the first overseas showroom – Warwick & Winthrop was launched in the famous 5th Avenue of New York City, along with a company-owned distribution centre in Long Island, New York.

The third wave of expansion has been from 2005 onwards. Stalwart opened a Stainless Steel manufacturing factory - Stalwart Technik Pvt. Ltd, the group's initial foray into the HoReCa Market. By infusing the half decade old tradition of electroplating with high-technology manufacturing of commercial food service products, Stalwart has carved a niche for itself in high-quality hollowware items. Other family expansions included launch of luxury retail chains in India and most recently, Stalwart's first product brand - Skyra Professional Tableware.

# *philosophy* ORIGINAL DESIGN & INNOVATION

Skyra is in the business of something new and something different. Unlike other manufacturers that have established a brand by dumping their export OEM products into their branded catalog, Skyra actually creates custom innovations for the Foodservice market. It took 3 years to formulate and execute our design strategy, which is as unique to Skyra as its products.

Each year, the designers at Skyra meet with a panel of top Chefs, F&B Directors and Caterers in India to discuss gaps in the Indian Tableware market. The designers then innovate designs around these issues and fine-tune them along with the panel and our in-house engineers. The engineers and production team create prototypes, re-tune and finally launch over a 100 new products each year. The products are designed to meet solutions in the areas of Food Presentation, Warming, Front-house Cooking, Serving as well as Storage.

## 2015 DESIGN INNOVATIONS

**PVD COATING:** Physical Vapour Deposition is a technology originally developed by NASA. This highly reflective finish is used in the aeronautical industry to protect Space Shuttle panels from corrosion. PVD Coating is a huge technological advancement on Skyra's electroplating heritage. The look and feel of electroplating is duplicated while featuring a non-tarnish and highly durable finish.

**CERAMIC COATING:** The high-gloss Enamel coating on the Rainbow collection is now done in Ceramic coating. Ceramic resin is much harder than enamel and also resistant to vinegar and other acidic foods.

**SOFT TOUCH SILICON COATING:** The special Silicon coating is a very high-end finishing technique that is also an insulator and beautiful to touch. It is applied on the body of some Tubs and Knobs and Handles of some food warmers.

**NON-STICK INTERIOR COATING:** The FDA Approved Dish-washer safe coating is commonly used on cookware. It is also used on Skyra Hot Plates for a sanitized food-safe use.

**CRATE COLLECTION:** Skyra innovates with a contemporary Stainless Steel twist on the traditional Farm to Table concept. The Crate collection is durable, sanitized and sexy.

**FAT FREE BUFFET:** Skyra solves the problem of huge capital investments and bulky storage across the Buffet. The Fat Free Collection features stackable risers, modular and interchangeable warming and cooling stations and inter compatibility between all products.

# skyra DOMESTIC & INTERNATIONAL PRESENCE

Skyra is a small international company with OEM customers in 18 countries, Exclusive Distributors in 7 countries, Resellers in 6 cities, Brand Principals from 5 countries and Warehouses in 2 countries. The products are spread evenly in the Western and Eastern Hemisphere.

Over 40% of Skyra's manufacturing business is from the Hotel Industry in USA. From In-Room Amenities to Breakfast Buffet and Fine Dining, Skyra's range of tableware is dotted across a large number of 4 and 5 star outlets.

Skyra is also the largest supplier of Hollowware products to the United States Rental & Catering Market. Every one of the Top 10 Party Rental companies in USA incorporates several Skyra products in their portfolio.

In 2014, Skyra established new exclusive distribution partnerships in Singapore, Hong Kong, Sri Lanka, UAE and Taiwan. Given the speed at which their economies are growing, they are poised to become strong markets for the Skyra brand.

# original EQUIPMENT MANUFACTURING (OEM)

For over half a decade, the core business has been Original Equipment Manufacturing (OEM) and Private Label projects for major HoReCa and Retail across the globe. Skyra prides itself in successfully executing the requirements of the absolute highest quality value projects and orders. By consistently challenging itself with ground breaking shapes, finishes and techniques, Skyra Manufacturing is dedicated to pushing the limits of metals forming.

Skyra welcomes OEM projects. The company is equipped to assist in design, rapid prototyping, high-speed CNC tooling and manufacturing. The company's forte is to swiftly develop the necessary technology and understanding to meet challenging product developments.

The Skyra manufacturing plant has been updated to support its core philosophy. It is quick, flexible and comprehensive. There are four core strengths in Skyra Manufacturing.

## CNC TOOLING PLANT

*Fast developments and complex profiles*

1. The CNC Tooling plant allows development of dies, tools and fixtures in record times.
2. It also enables tooling for complex profiles and gradients. Example of CNC tooled products is the Stelton Double Wall Bowl – designed by Hiromichi Konno and instated in the Museum of Modern Art (MoMA – New York).

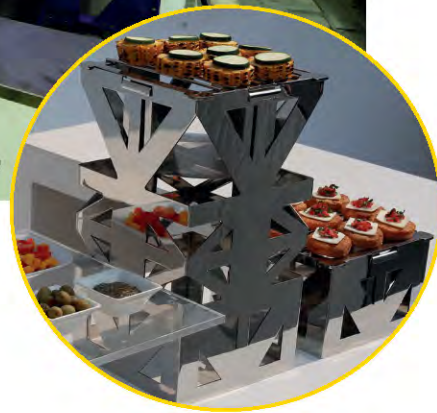

## THE LASER FABRICATION SETUP

*Flexible and quick*

This means low development costs, almost negligible development lead time and the ability to make small production runs.

It also enables highly complex shapes. A good example of a laser-cut product is the Fat Free Collection.

## THE LARGEST DEEP DRAW PRESSES IN THE INDUSTRY

*Very Big Items*

Our pressing unit has some of the largest machines in the tableware industry. Skyra can manufacture large trays, pans and tubs upto 36" wide and 16" deep.

## THE PROFESSIONAL FINISHING PLANT

*Custom finishes in many styles*

**Enamel Coating:** In a high gloss lacquer finish in any pantone shade

**Ceramic Coating:** Strong and Durable in any pantone shade

**Silicon & Non-stick Coatings:** Dual Finish, Soft touch and multiple other Silicon coating options

**Electroplating:** An electro-chemical dipping and baking process for Silver coatings

**Powder Coating:** A spray and bake cost-efficient process

**PVD Coating:** Copper, Gold, Titanium and other metallic high quality finishes

**Shot Blasting:** A spray process in a special protective chamber

Such a comprehensive finishing plant allows Skyra to make products in many a huge variety colors, finishes and styles. All the above capabilities are all housed in a Manufacturing Facility just outside of New Delhi. There are over 200 engineers and executives working full-time. It is the most comprehensive setup in India and it enables Skyra to be extremely quick, flexible, dynamic and controlled.

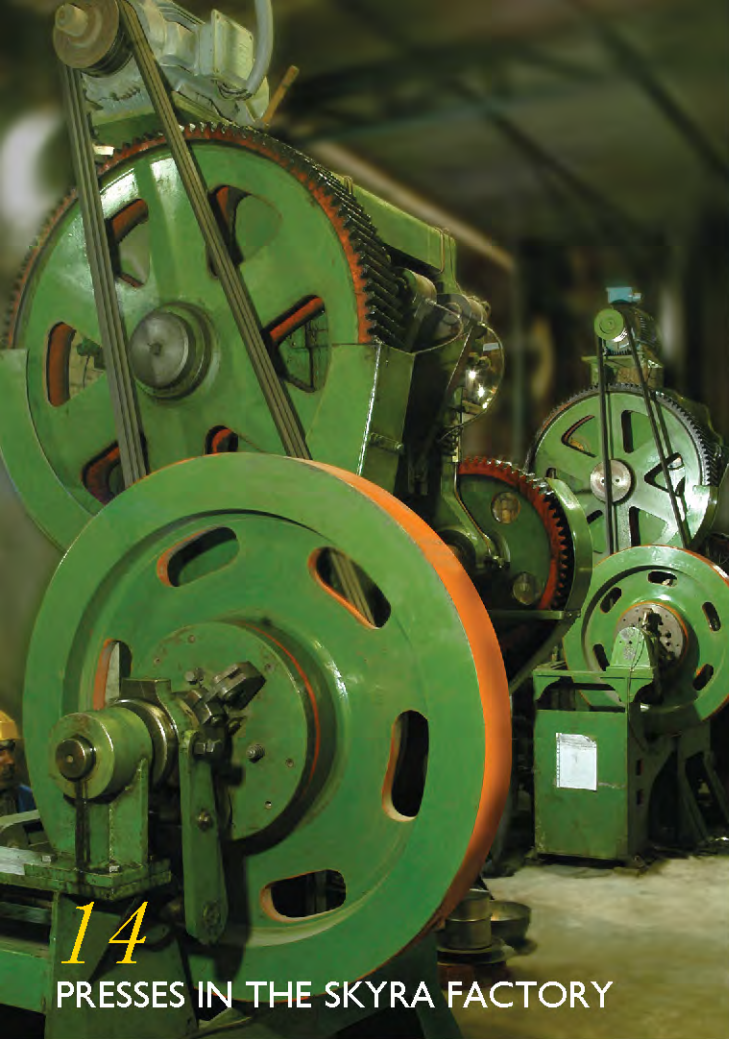

*The lacquer finish*

## skyra CUSTOM BRANDING

For a Minimum Order Quantity of 100 pieces, Skyra can custom brand the products. Depending upon the product, it can be Printed, Laser Etched or Laser Cut to specification.

# the MINI BYTES COLLECTION

The Skyra product portfolio has new babies. These wonderful amuse bouche servers are intelligent and quirky. Inspired from McDonalds' french fries holders, Weber grills, sauce and saute pans, traditional Indian kadhais and handis, planters and buckets, are 27 variations of small wares finished in Stainless Steel, Copper and Titanium. They are sized from 2" to 6" and are extremely versatile in their use.

# pi MINI-BYTE HOLDER COLLECTION

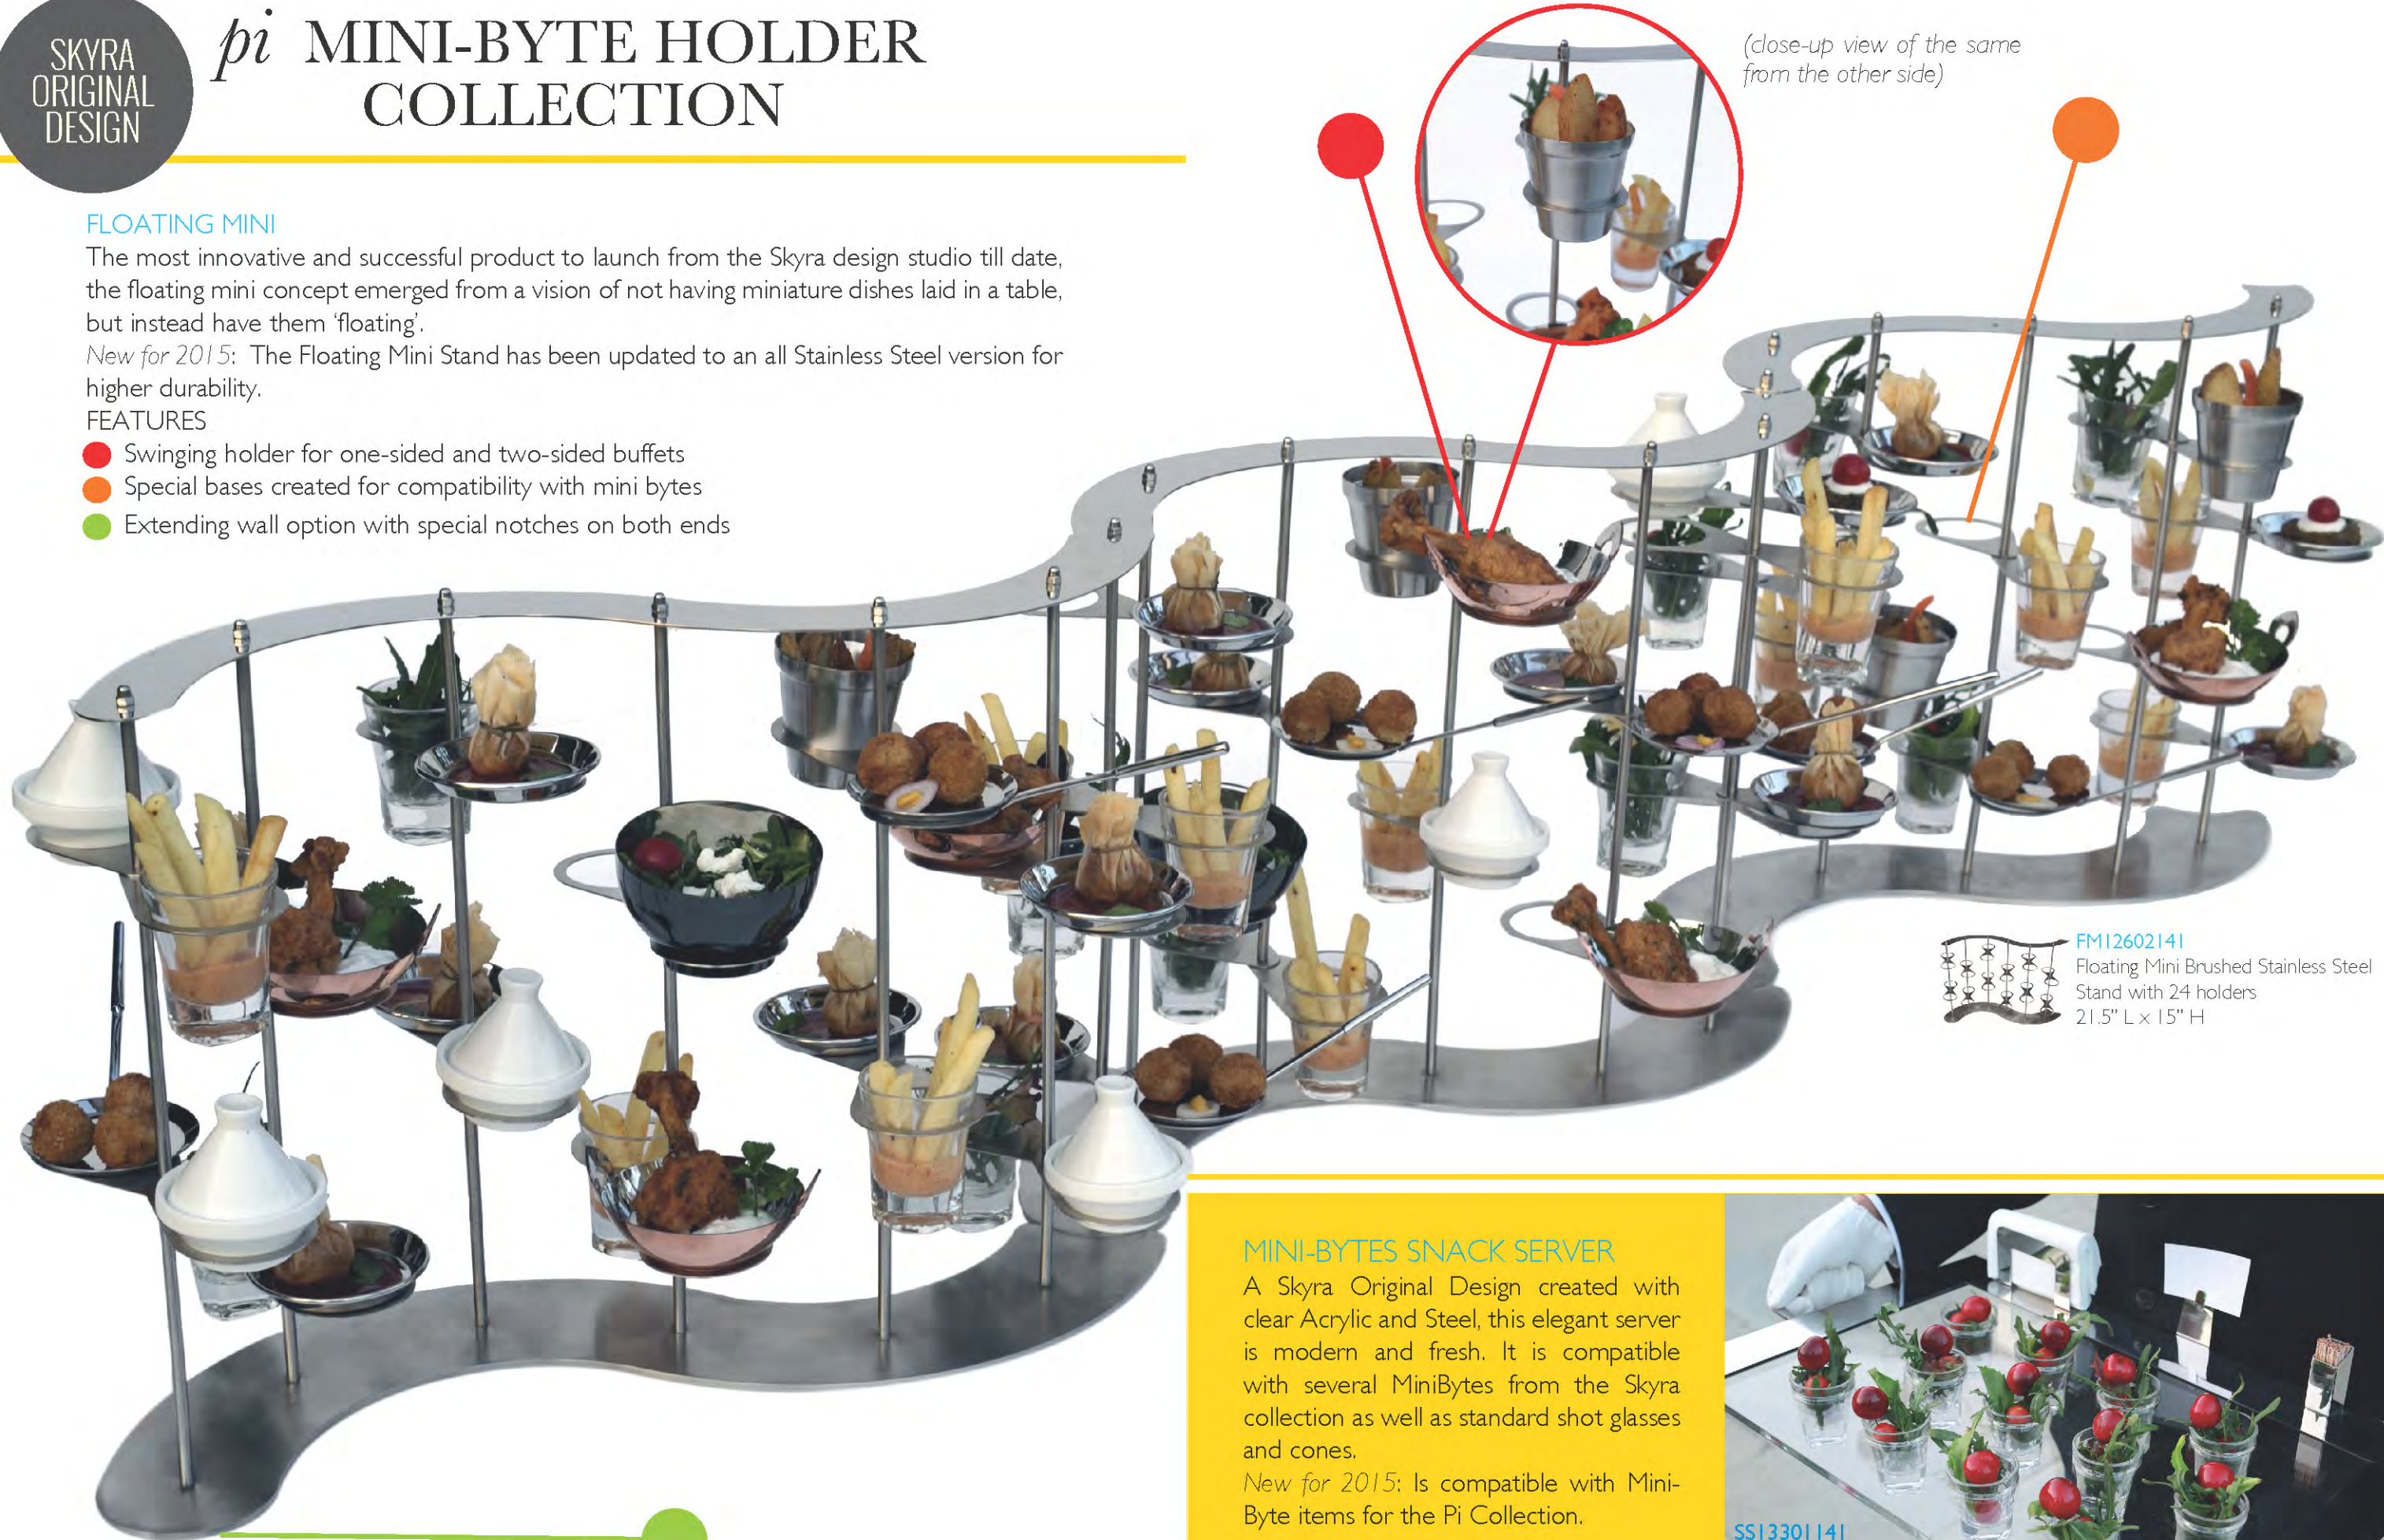

## FLOATING MINI

The most innovative and successful product to launch from the Skyra design studio till date, the floating mini concept emerged from a vision of not having miniature dishes laid in a table, but instead have them 'floating'.

*New for 2015:* The Floating Mini Stand has been updated to an all Stainless Steel version for higher durability.

### FEATURES

- Swinging holder for one-sided and two-sided buffets
- Special bases created for compatibility with mini bytes
- Extending wall option with special notches on both ends

(close-up view of the same from the other side)

# the SENSATION COCKTAIL SERVERS

The sensational cocktail servers consist of Wine, Cocktail and Snack Servers that are smart and convenient. We have received many requests for a Whisky server where the bottle can be presented. We know that cheese and wine simply demand to be served together so we made it possible with the Sensational Wine Server. Our new tiered Snack Warmers are cool presentation tools for the high-design outlets.

# the STICKY BLOCK BUFFET

The Sticky Block collection is the star product in the Skyra portfolio. It is one of those simple designs that leave any person wondering "Why didn't I think of that?" Made specifically to simplify operations, sticky block risers is conceived from a challenge received by a local celebrity Chef. "I want elevations that are absolutely straight forward, modular and so simple to use that my ground staff will not require any training." Bricks and Lego blocks are something that every child and every adult are very familiar with. The brick foundations of our civilization have been smartly converted into the sleek and elegant tools for food display. These modular blocks have magnets inside and stick to one another to create a very stable and flexible pillar for risers. A set of 12 along with 3 or 4 platforms is good enough to create a strong presentation. *New for 2015* is Sticky Blocks XL. A longer version of the original Sticky Block, so that there is sufficient surface area to display Mini-Bites without a platform.

# the FAT FREE COLLECTION

This intelligent modular concept is called Fat Free because it helps to trim the fat in your inventory and logistics costs. The Buffet station has interchangeable tops that enable it to convert from a Chafing Dish to a Live Cooking Station and Cold Station. Although all 3 types of buffet stations are necessary for any banquet operation, now the customer does not need to stock hundreds of each of these bulky items. The idea is to purchase the three variation tops for every base unit, so that the stations can be flexibly used in Cooking, Warming or Cooling.

The stackable and collapsible systems can replace the existing bulky units with slim 1" thick pillars. The risers are available in 5", 10" and 15" sizes, and integrate with each other. They are also compatible with the Fat Free Buffet Stations to create a seamless preparation, cooking and serving solution.

*New for 2015* is the Fat Free Warm Risers. These 8" Square Pillars are perfect for integrating elevations at three different levels, but also warm the food. Simply drop in a sterno into the Riser and integrate it into the stations for an impressive end-to-end buffet line.

### FAT FREE BUFFET STATION

1. Interchangeable Tops to make a Chafing Dish, Live Cooking Station and Cold Station
2. Chafing Dish works with Chafing Fuel
3. Cold Station consists of Ice Liner with Platter
4. Live Cooking Station works with Butane Burner or Stove Insert

### FAT FREE RISERS

1. X-Risers can be collapsed
2. L-Risers can be stacked into each other
3. All sizes of risers are compatible with each other and buffet stations

### FAT FREE WARM RISERS

1. Drop Chafing Fuel into the Pillar and place the Grill
2. Integrates with the Fat Free Buffet Station and Fat Free Risers

# the FAT FREE SNACK WARMER

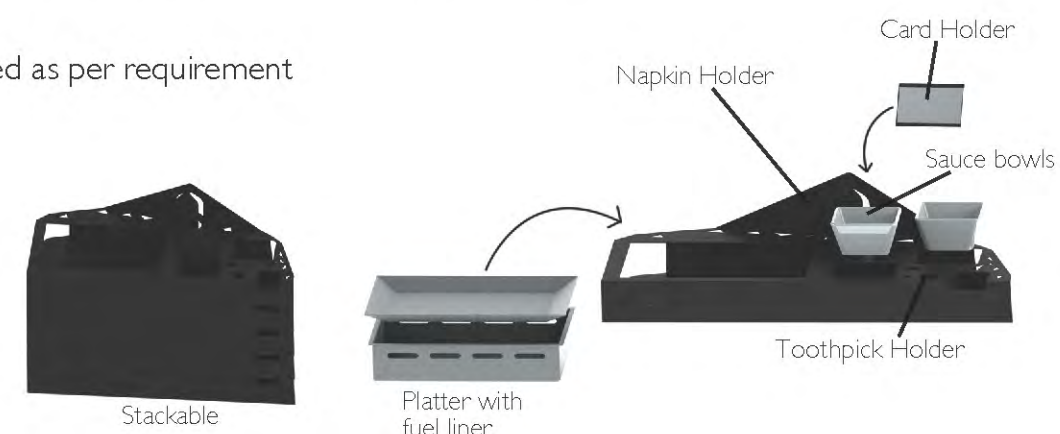

The 1.0 version of the Fat Free Snack Warmer was released in 2013 and changed the look of snack service instruments forever. A specialized template cut and bent from a single sheet of metal incorporates slots for the Burner Pot and Food Platter, Sauce Bowls, Tooth picks, Bin for Tooth Picks, Napkins, Name Tag and also a Tea Light. All components fit together into a contemporary ground-breaking solution like never before - it is a revolution in the Snack service industry!

The 2.0 version released in 2014 is more compact, incorporates Ceramic Bowls, Bottom holding feature and is stackable.

New for 2015 is the Mirror Polished Stainless Steel Snack Warmer.

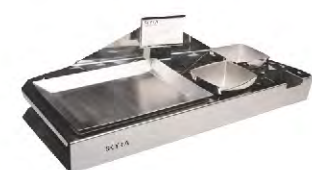

## FEATURES

1. Can be assembled as per requirement
2. Stackability

# the FARM COLLECTION

The Farm to table collection is fabulously trendy. It is a mixture of Powder coated Wrought Iron and Polished Meranti wood. The Wood tiles are independent from the metal risers enabling tools for innovation and creativity. The Farm risers can be used with Glass, Stone, Metals or other tiles to match the decor. Without the wood, the risers can also be used with fuel below to act as stands for warm dishes.

New for 2015, the 3 Tier Bowl Risers are sold with the porcelain inserts.

## SKYRA ORIGINAL DESIGN

Here are some of the reasons why Skyra products stand out amongst the competition.

**ORIGINAL DESIGN:** If you see a product that is similar to Skyra in the market, it is because it has been copied from Skyra. Skyra designs its own products. They are original concepts and innovations in the foodservice market.

**PROFESSIONAL TOOLING:** The Dies and Tools are the basic ingredients in our products. Lack of good tooling results in 'wrinkles', 'waves', 'orange peel effect', 'asymmetry' and other defects that are often noticed. Well not on Skyra products, as every draw, cut, bend and joint is created through the use of professional tools.

**RAW MATERIAL:** Skyra is one of the very few manufacturers in India that uses virgin coils of 304 Stainless Steel to manufacture its products.

**THE POLISH:** Evolving from a traditional Silver plating company, Skyra has maintained its 55-year old commitment to the mirror polish required for coating in Silver. Skyra pays polish labour costs of 2x the polishing rates of the next best high-quality manufacturer in India. It is also 5x the rates of the general market. This is because our polishers proportionately spend 5-times the average in polishing each product to a brilliant mirror finish, eliminating all pit marks and scratches in the process.

**THE EDGES AND JOINTS:** Skyra takes special care of the most vulnerable parts of the product. In bowls and pots we roll the edges, argon weld the joints and use 5-knuckle hinges to prevent any leakages, dents and fractures. In Trays and Platters, we ensure a smooth and rounded profile on all our edges.

**FINISHING:** Skyra has the largest range of finishing capabilities. This is what makes the product so exciting and designing so much fun. Once the product is manufactured and polished, we can do Shot Blasting, Powder Coating, PU coating, Enamel Coating, Ceramic Coating, PVD Coating, Electroplating and Hammering, Etching and Embossing. This enables a variety of textures and finishes in any pantone shade of Gloss, Matt or Metallic.

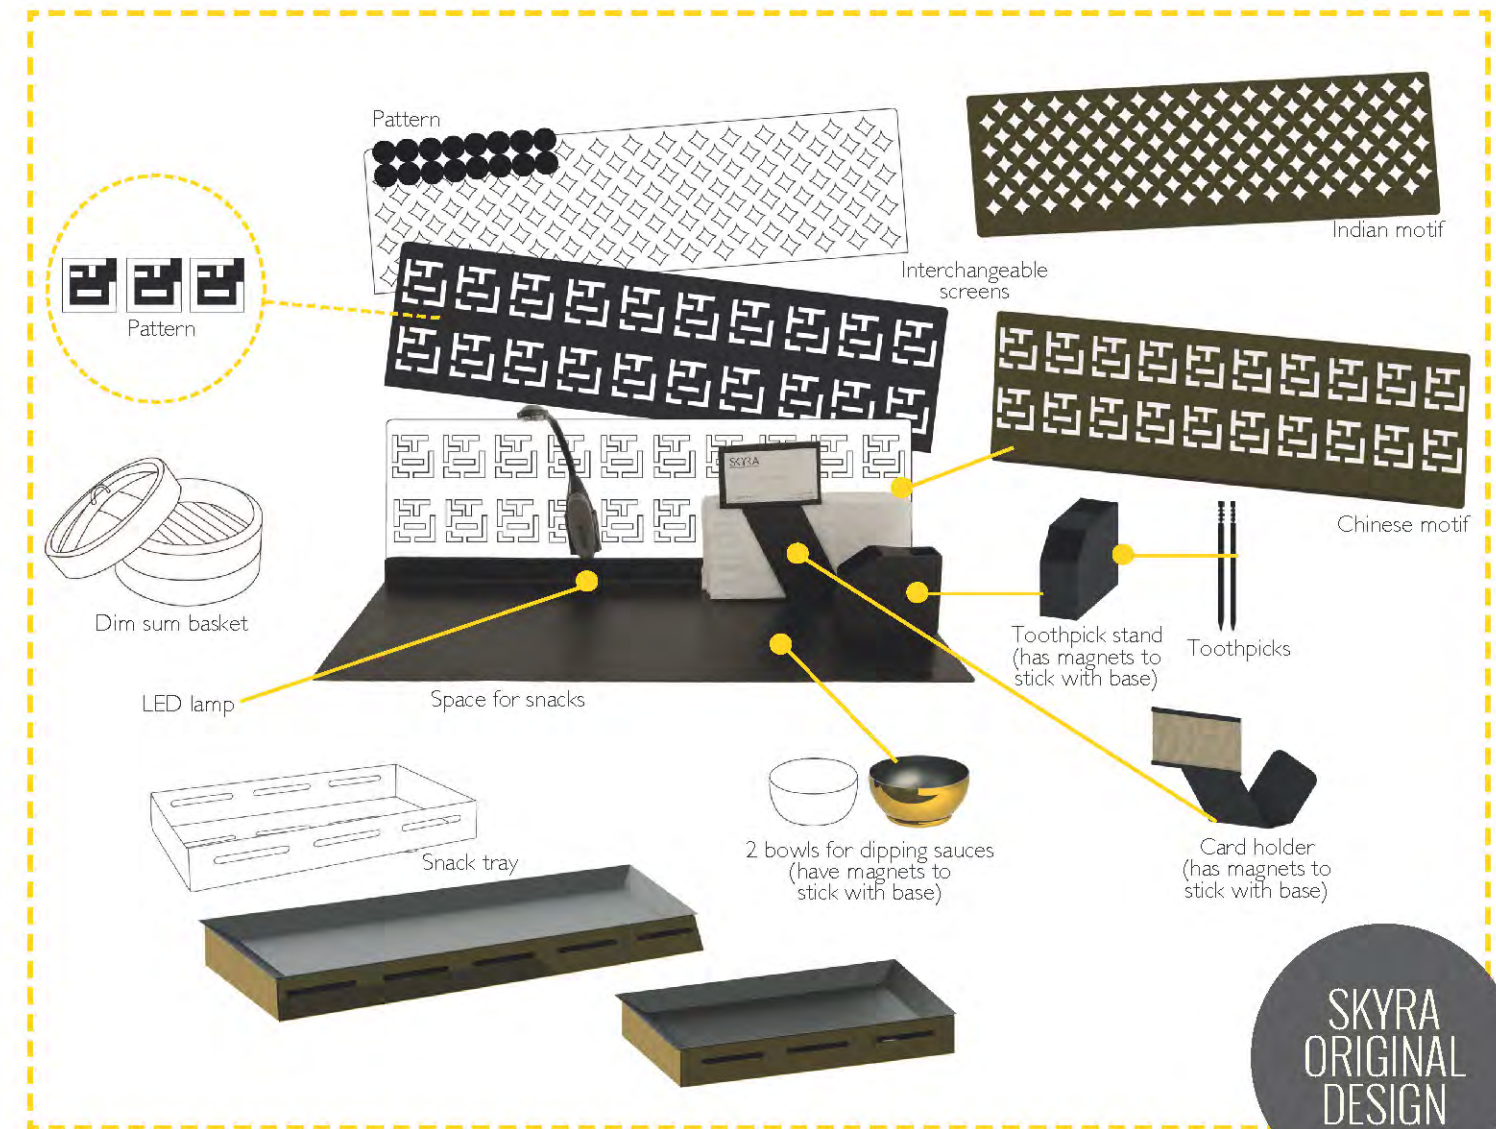

**QUALITY ASSURANCE:** A key competitive edge of the factory is its location in the Industrial Automotive belt of New Delhi. Skyra has highly qualified engineers that are very experienced with Auto quality systems and have implemented it since several years in the company. The result is a systematic preventive and corrective quality inspection and assurance process.

**TESTING AND AUDITS:** Skyra has its own testing laboratory. We do tests on everything, starting from Raw Material grade and thickness, corrosion, radioactivity, joint strength, functionality, coating thickness, and transit drop tests. A number of scientific devices are available for each type of test. Skyra has also appointed a third-party inspection agency that does audits on each shipment.

# transformer SNACK WARMER

With Dim Sum Basket and Chinese screen

With Minibytes Warmer and Chalkboard Screen

Copper Indian Screen

## VERSION 2.0 SPECIAL

Customizable screen to match the event theme

This flexible product design is a major innovation in Snack Warming. As the name says, the Transformer Snack Warmer is Modular and Magnetic. It is the first time that all components can be interchanged and put onto the platter with the help of hidden magnets. It is also the first time that the Snack Warmer is themed by having interchangeable screens of Indian or Asian patterns. Finally, it is also the first time that a LED lamp can be adapted onto the Snack Warmer to give it that lounge like effect. New for 2015 is a larger warming box, handles on the tray, and an all-Black and all-Stainless Steel version. The screens and LED lights can be added on as required.

**CUSTOM DESIGN SCREENS:** For orders above 100 pcs, we can custom design the Screen of the Snack Warmer. This can be in any metal finish with Company Logo, Occasion, Theme and other elements built into it. The Skyra design team will happily work towards creating a sensational design for you.

The vertical buffet is a brave new concept in Buffet display. It focuses on breaking the monotony of Tables, by stacking shelves and chafers onto vertical panels. This innovative concept is a revolutionary way of making your buffet look absolutely different from the convention.

Special Wire channels behind each frame accommodate for light / heat lamps, induction or electric heating and other wiring on any level. The Gaps between the channels can be fitted with frosted acrylics, corporate branding, fabric or any other material to support the décor of the outlet or event.

## the CHINA TOWN COLLECTION

The China Town collection is a Skyra Original Design. The concept is to break away from commercial Chafing Dishes, and present and serve food in buffet stations that are in the theme of the decor and cuisine. Whether the service is in a Pan Asian setting or simply serving Chinese food, the China Town collection will surely enhance the guest experience to another level.

# *the* HERITAGE COLLECTION

**HERITAGE MONUMENTS:** The Heritage monument risers have been modelled around the monuments of India. They are the pillars that can directly, or with the help of platforms create a beautiful elevation for a classy food presentation. Apart from being so unique, the monument risers come with plastic inserts which enable a jaw-dropping glow of colour, when light is placed inside.

The Monument pillars consist of edges and niches that enable platforms to be placed in between pillars. They all fit with each other to create elevations in multiple heights.

**HERITAGE LOTUS PLATTER:** The Heritage Lotus platter is possibly the most complex product that we have ever made. It has been created to cater to the growing trend of single servings. Tweaked to an Indian theme – the Lotus platter is part of the Heritage Collection and represents India's national flower. The design has a dozen leaves for plating bite size portions and a dip bowl in the centre. It can be used for Table servings, as a centre piece or as a pass around platter along with the wooden tray.

**HERITAGE SWING CHAFER:** We have noted the countless times that chefs tell us “We would like to break the monotony of tables”, and this is one effective solution. The Heritage series item is inspired from traditional Indian cooking in a hanging ‘Handi’. But Skyra has gone a step further and engineered the product for Professional Catering. The legs can unscrew to create a comfortable size for transportation. And with the inclusion of Name Tag Holders, Ladle Holders and Plate Holders, the double chafing dish becomes a comprehensive walk-up buffet station. Further, the Chafing Dish can be switched with a cold station as well.

- Features*
- Collapsible Stand
  - Interchangeable Hot and Cold Stations

# the MASALA COLLECTION

The Masala Collection is named so because it is a mixture of modern clean shapes and traditional finish. The Spherical domes, Fluidic edges and Straight line forms define the modern character of the items. In the Hammered Copper exterior, the fusion is trendy and exciting. The Masala Collection consists of Chafing Dishes, Live Cooking Station, Coffee Urns, Risers, Bowls and Platters.

We keep hearing the phrase 'get away from tables' again and again. From renowned chefs to local caterers, everybody is tired of the infinitely long buffet table setting. Our answer to that is the Masala Standing Chafing Dish. Sitting on an assembled floor stand is a hydraulic hinged 6Qt Chafing Dish with a Ladle Holder and a Name tag holder on each side for a comprehensive walk-up station.

The Masala 6Qt Chafing Dish is available in a Lift-Off style and Hydraulic hinge style. Both items can be placed on the table or screwed on to the Floor stand.

## *the* MARRAKECH COLLECTION

The Marrakech series is a farm to table collection. Our Burnt Copper finish has been developed in-house to answer requirements for a Rustic collection. It is a copper plated collection with a special hand application to distress the look and give it this proprietary burnt finish.

It is a comprehensive collection that includes Chafing Dishes in 4 sizes, Coffee Urns in 3 sizes, and Soup stations in 2 sizes, 2 types of bowls with lids and stands, a Beverage Tub / Waste Bin and a beautiful spring loaded candle with multiple shade options.

# *the* ROSE GOLD COLLECTION

The elegant Rose Gold is one of our best-selling collections. It is named so because of the beautiful contrast of the Rose copper body and Gold brass finials and stand. The Copper surface is manufactured from 304 Grade Stainless Steel with a 10 micron Copper electroplating over it. The Gold surface is manufactured from 304 Grade Stainless Steel / Casted Brass with a 10 micron Brass electroplating over it.

# the PRESIDENTIAL COLLECTION

The Presidential is the most cost-effective buffet collection in our portfolio. This all stainless collection is practical and easy to maintain. The Chafing Dishes, Coffee Urn, Cooking Stations, Bain Marie and Risers are in hammered mirror polished stainless steel. The Bain Marie is an especially popular item. It has a 1 Litre insert in a warming pot with a lid on a burner stand. It is incredible useful for warming sauces and other condiments.

The Brooklyn collection is a sleek, modern collection, entirely made of Stainless Steel. The designs are classic and have been selling well for over a decade.

# the ICE BOWLS COLLECTION

The Ice Bowls are a unique and intelligent way of serving food chilled in ambient temperature. These tempered glass bowls vary in size from 12" to 3" diameter. They are available in sets of 1,2,3,4 or 5 and can be used in various combinations. By filling ice into the concealed bottom tray, the bowls can remain chilled for extended period of use. Alternatively, by removing the tray, the item is transformed into a sleek contemporary bowl set for room temperature food.

### FEATURES

- Removable concealed ice tray
- Modern flat covers for bowls

# *the* DOBBELT & RAINBOW COLLECTION

'Dobbelt' in Danish means Double. It accurately describes our minimalistic Scandinavian Double Wall Bowl Collection. The Double Wall allows for insulation to touch when filled with hot food and prevents sweating in cold stations. It also helps keep food warmer for extended period. The thick walled sleek designs are superbly finished and will look beautiful in any setting.

The beautiful Bead collection is an elegant fit for any high-end event. It includes myriad items from Bowls and Trays to Tiered Stands and Wine Coolers. This classic collection is characterized by a Bead Trim around the edge.

*the* BEAD COLLECTION

# the SUITE COLLECTION

The Suite Collection is characterized by high quality and heavy duty. All the items in this collection are the absolute top in construction and finish. The Suite Coffee Pots feature a double wall with wool fiber insulation. The heat retention in the product is very high, outlasting most vacuum jugs.

# *the* 'PROFESSIONAL' IN SKYRA PROFESSIONAL

Explorers and innovators who push the boundaries of personal and professional development have wandered their way into Skyra Professional Equipment Pvt. Ltd. The organization aims to be on the cutting edge in Foodservice Equipment design and manufacturing. With dedication to product innovation and raising the bar in the purchasing experience and customer service, the company has, bit by bit, found teammates, associates and partners that can share and drive its vision.

A play on words, 'Skyra Professional' stands equally for its focus on a professionally managed organization as its product portfolio for professional food service. "There is a distinct sense of professionalism in everything we do" says Raghav Khosla. The entire organization operates on the SAP ERP system to enable best practices across all verticals. The Sales, Marketing, Product Development, Manufacturing and Operations teams are creating as much as they are operating. "Every day we build new systems, new analytics, new processes to push the boundaries even further" states Raghav Khosla. There are contributions from everywhere because it is a company where each's contribution counts and where the ideas and suggestions are appreciated and driven. It is a proud time for Skyra.

Skyra was conceptualized a few years after Raghav Khosla, who has an education background in Engineering and work experience in Stainless Steel manufacturing married Rashi, an MBA who had worked in some of the best international marketing and advertising firms. "Although I had studied and worked in marketing, my true passion was Product design. I have no formal education in it, but I can communicate a design language and ideate new products, which are then engineered to perfection" says Rashi.

True to its core values, Skyra Professional understands that it's people are the essential factors that make everything – building great products, creating lasting relationships with their clients, contributing to the community, supporting their life dreams – possible. Overall, the company pushes for its mission - We work hard every day to create products that help the food taste better.
