

A detailed photograph of a silver tea set on a floral tablecloth. In the foreground, a silver fork, knife, and spoon are laid out on a white plate with a floral pattern. To the right, a silver teapot, sugar bowl, and creamer are visible. A silver candlestick with two lit candles stands on the left. The background is a vibrant floral pattern. A semi-transparent blue box in the center contains the Arthur Price logo and text.

Generations of style

2019-2020

Few things grace a home and define its style with quite such ease and elegance as a table dressed with the finest cutlery.

At Arthur Price of England, our passion for producing luxury cutlery to the highest standards of quality and craftsmanship remains at the very heart of everything we do.

Since 1902, and five Price family generations later, we still insist on handcrafting each individual piece. We do this by combining traditional skills, uncompromising quality and the latest manufacturing technology so that a lifetime of dining pleasure awaits you.

Welcome to the family

Creating beautiful cutlery, silverware and gifts has been my family's passion since 1902. I want our cutlery to take pride of place in your home, which is why every piece bearing our name is designed to look great and built to last.

As the UK's leading cutlery brand we've dedicated ourselves to perfecting each knife, fork and spoon - so you'll want to use them again and again. Made from the finest grade, 18/10 stainless steel all our cutlery sets are designed to be used everyday. After all when cutlery looks this good, why hide it away.

Over the decades we've expanded our gift range to include everything from stylish silver plated photograph frames, through to gorgeous slate tableware and a great deal more in between.

We hope you too will appreciate the high standards of quality that lies at the core of everything we do... that's why we happily put our family name on it.

"It's because we're a family owned business that we take such pride in our work. In our eyes, good service never goes out of fashion. Now in our 5th generation we remain as committed to customer care, exceptional design and uncompromising quality as when my great-grandfather started the company in 1902."

Simon Price, Chief Executive

A History of Excellence

It was Arthur Price's dual passion for quality and cutlery which first led him to found the company in 1902 and later pass it on to his two sons, Arthur Junior and Frederick. His profound belief that only the very best will do still remains the watchword of our present owner and his great grandson, Simon Price.

With only a brief break during World War II when the Sheffield factory produced munitions for the armed forces, we have never sacrificed quality to follow short-term trends. This dedication was rewarded in 1976 when we were commissioned to design and create the cutlery for the launch of Concorde. The following year we were delighted to be granted the Royal Warrant by appointment to H.M. The Queen in her Jubilee year. And in 1988 we were granted our second Royal Warrant, this time to H.R.H.

The Prince of Wales. We know that Arthur Price would feel immensely proud to see the company he founded recognised in such an esteemed manner. The family connection continues to flourish with Simon's eldest son, James, joining the business in 2012 to become the fifth generation Price to be involved in the company.

Baguette

With fluid lines Baguette's understated pattern complements both traditional and modern settings.

Bead

The Bead pattern was originally designed by Huguenot silversmiths to represent pearls, which were popular in the French court of the 1760s.

Britannia

Quintessentially English, the Britannia pattern is based on the threaded Old English patterns of the 1750s which have enjoyed international popularity ever since.

Chester

This pattern was commissioned by the Lord Lieutenant of Cheshire, the 2nd Duke of Westminster during the early 19th century.

Dubarry

The Dubarry design originated during the early 19th century. Inspired by the fashions of the period this pattern is the epitome of sleek delicacy.

Grecian

The Grecian design was first produced during the Art Deco period, its bevelled edges and angular corners reinterpret the geometry of classical Greek architecture.

Harley

Harley originated from the Art Deco period of the 1920s and 1930s which demanded bold geometric design and a strong emphasis on quality.

Kings

Kings is a direct descendant of an older pattern called Fiddle Thread and Shell. This particular adaptation first appeared around 1817 and is still enormously popular today.

Old English

Old English evolved in the 1750s from the Rattail pattern. The 'pip' seen on the front of the fork handle appears on the reverse of the spoon because, in the Georgian era, spoons would have been laid face down on the table.

Rattail

Rattail is the oldest pattern in the range and dates from around 1710 when modern table etiquette started to develop.

Ritz

A design exclusive to Arthur Price of England, Ritz is based on the French Empire styles of the 1780s and reflects the tastes of the court of Louis XVI.

Royal Pearl

Royal Pearl was first introduced in 1990 to celebrate H.R.H. Queen Elizabeth, The Queen Mother's 90th birthday and reflected her love of pearls.

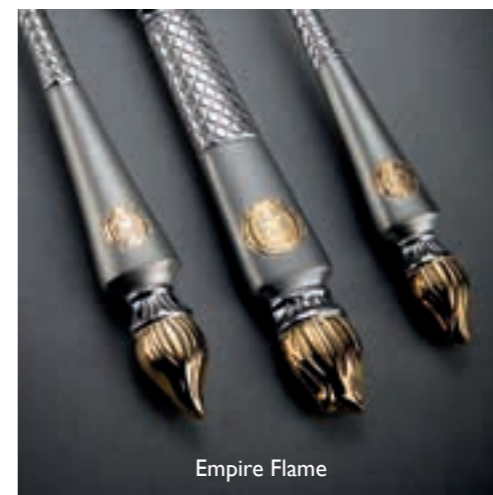

Titanic

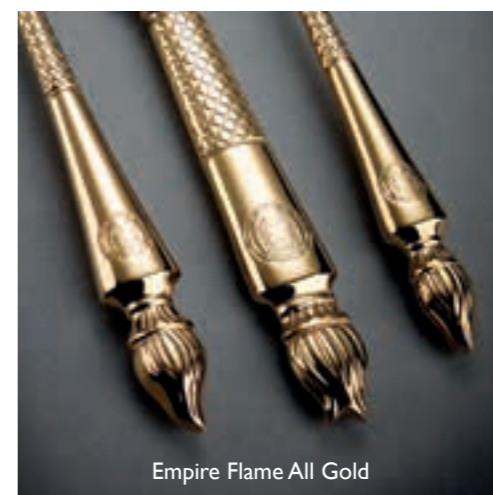

The Panel Reed pattern was supplied for use in the first class dining accommodation on board the world's most famous ocean-going, luxury liner.

Caring for Your Cutlery

These few simple guidelines will help keep your cutlery in tip-top condition.

Dishwashers

- All our stainless steel cutlery is dishwasher safe. Follow the manufacturers instructions.
- Avoid mixing stainless steel and silver plated cutlery in the dishwasher basket as this will corrode the steel.
- The damp atmosphere of a dishwasher can cause damage over time so try to remove and dry your cutlery as soon as the machine cycle has finished.
- Keep the dishwasher rinse agent topped up to prevent smearing.

Handwashing

- When handwashing avoid using liquid bleach and ensure that detergents are dissolved otherwise staining may occur.
- Prolonged contact with water should be avoided as this has a corrosive effect.
- Once your cutlery is washed try to dry it as quickly as possible using a soft cloth.
- Do not use scouring pads or abrasive sponges when washing up as they can scratch.
- Avoid detergents containing lemon.

Polishing

- Do not clean stainless steel with silver polish as it's too acidic.
- If staining does occur, a good stainless steel cleaner can be used to remove marks.
- Please remember that over time small surface scuffs and scratches will develop and this is only natural.

If these steps are followed you can look forward to many years of good service from your Arthur Price cutlery. Remember... Stainless steel means it stains less *not* doesn't stain at all.

Our Customer Cutlery Guarantees

We offer extensive guarantee periods on all our ranges. In the unlikely event of a defect arising from faulty workmanship or raw materials we promise to replace any faulty item - free of charge.
