ART.MADE

The *Art.Made* collection is part of the demanding tradition of fine dining and, to meet the fundamental needs of the sector. Art.Made is synonymous with the art of plating, but also with the act of creation: each piece has been carefully designed and hand crafted with passion and care. And so, just as an extraordinary dish is experienced in a unique way by those who enjoy it, each piece of the collection is also unique.

A plating concept inspired by nature and its poetic unpredictability, where art and exploration come together, unravel and branch out. By creatively translating a combination of experiences, Multiplicity makes each object unique.

# CHEFS' COLLECTION

This original association bears unique and exquisite pieces that combine the primacy of the Vista Alegre design with the creativity and practicality demanded by the cuisine of excellence. A project that spans several countries already, signalling a growing presence of Vista Alegre in the sector and fostering, through this close relationship with the true masters in the art of serving well, its recognition as the benchmark - in innovation, elegance and quality.

Plate Aura  
by Sebastian Frank

Lift up tradition with contemporary sophistication. The new piece from the emblematic *Chefs' Collection*, *Aura*, by the Austrian chef Sebastian Frank (2 Michelin Stars, Best European Chef 2018 and head of the prestigious restaurant Horváth in Berlin) will make its mark in any context. To design it, Frank was inspired by the grandeur of the Austro-Hungarian Empire (1867-1918) and the iconic golden railing that surrounds the Hofburg Imperial Palace in Vienna, designed by Johann Bernhard Fischer von Erlach, the court architect who was also responsible for the magnificent Baroque extensions, including the Golden Gate, completed under the supervision of his son after Johann's death in 1723. Thanks to a bold fusion of minimalism and maximalism, the *Aura* plate reconstructs the historic fence in the impressive circular composition that celebrates ornate geometry, topped in the center by an exquisite golden line. The delicate textures invite light and shadow to dance on the surface, and the interplay between glazed porcelain and biscuit reinforces dynamics on the whole, vividly capturing the timeless elegance of this rich architectural and decorative heritage.

Each piece of the set *Utopia* displays a construction of different reliefs inspired by Japanese geometries which adapts to the shape, highlighting each piece and giving it momentum. The relief is inspired by ruffles applied to origami, the secular Japanese art of paper folding. A set where fluid and elegant curves delicacy and poetry prevail.

Small Plate 22 Frosted Glass  
△ 625 gr H 74 mm Ø 130 mm

*Infinita* is a small collection of unusually shaped porcelain servers for sensitive and creative catering. Ideal for presenting premium, beautifully styled contemporary food concepts. Softly stretched surfaces, without visible edges, with no start or finish, characterise the formal statement the servers are making. The traditional division in porcelain tableware of edge and eating surface is completely done away with here. The charm of the objects stems from the contrast between the perfectly smooth and reflected surface, stretched over the inner core, and the exquisite dishes and sensitive food styling of an ambitious chef.

# GLACIOS

*Fernão Gonçalves*

Inspired by the metamorphosis of liquid into ice, the *Glacios* crystal collection captures the magical moment when crystal-clear water freezes into solid blocks, resulting in pieces that appear sculpted from pure ice. To craft glasses with the ideal characteristics for drinking cocktails – such as shape, thickness, transparency, volume, ergonomics, and even compatibility with ice – we partnered with the renowned bartender Fernão Gonçalves, whose expertise and insight helped us conceptualize this ambitious project.
