gastro
moda

With GREIFF, you can rest assured that everything is produced in a **fair and sustainable** fashion.

Almost every company is now committed to sustainability and responsible business practices, so it makes sense that corporate wear has to be ethically produced too. If you choose GREIFF, you can be confident that we select our production partners with just as much care as all the materials we use.

We only use producers who guarantee fair, safe and respectful working conditions for their employees, conserve energy and raw materials, and work with us to meet the highest standards of quality. That is why we are a member of the Fair Wear Foundation, which is committed to improving workplace conditions at manufacturing facilities. We only use high-quality materials which contain no harmful substances - all of which meet the requirements of STANDARD 100 by OEKO-TEX®.

Our responsibility starts with farming and trade.

All of the cotton used for the GREIFF collections **CUISINE EXQUISIT** and **CUISINE PREMIUM** is certified by Fairtrade. This cotton comes from small-scale farming organisations that meet Fairtrade environmental, economic and social standards.

Fairtrade makes long-term improvements to the lives of cotton growers' families. It gives farmers the security of knowing they can sell their cotton for a fixed minimum price, so their production costs are always covered. The farming communities also receive a Fairtrade premium which they can invest in community projects such as the construction of a school or a well.

For up-to-date information about responsibility in practice at GREIFF, visit: www.greiff.de

myGREIFF-Code: We know exactly where each of our products comes from.

The myGREIFF code provides all the important information about every single product.

You can find it on a label on your garment. With the aid of the myGREIFF code, you can trace the whole process that went into making your product - from the fibre to the finished item of clothing. You can see where the raw materials used for your product came from and where they were processed. You will also receive reports on the manufacturing facility audits completed by the Fair Wear Foundation and see what certifications your garment and our production partners hold.

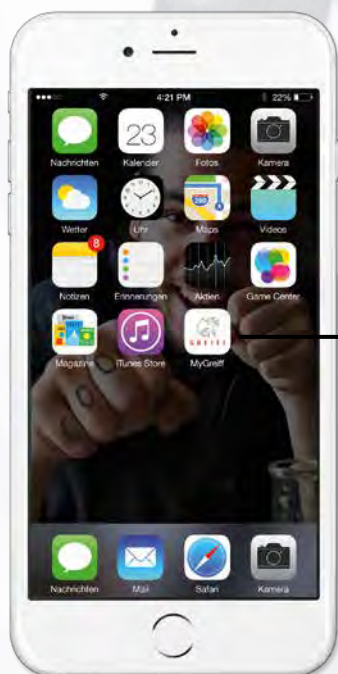

See our products in action!

The photos in our catalogue already give you a good idea of our collections, but now we are offering an even more attractive glimpse of them and bringing our clothing to life by providing a short video of almost all our products. To watch it, simply scan the QR code next to the photos with your smartphone or tablet.

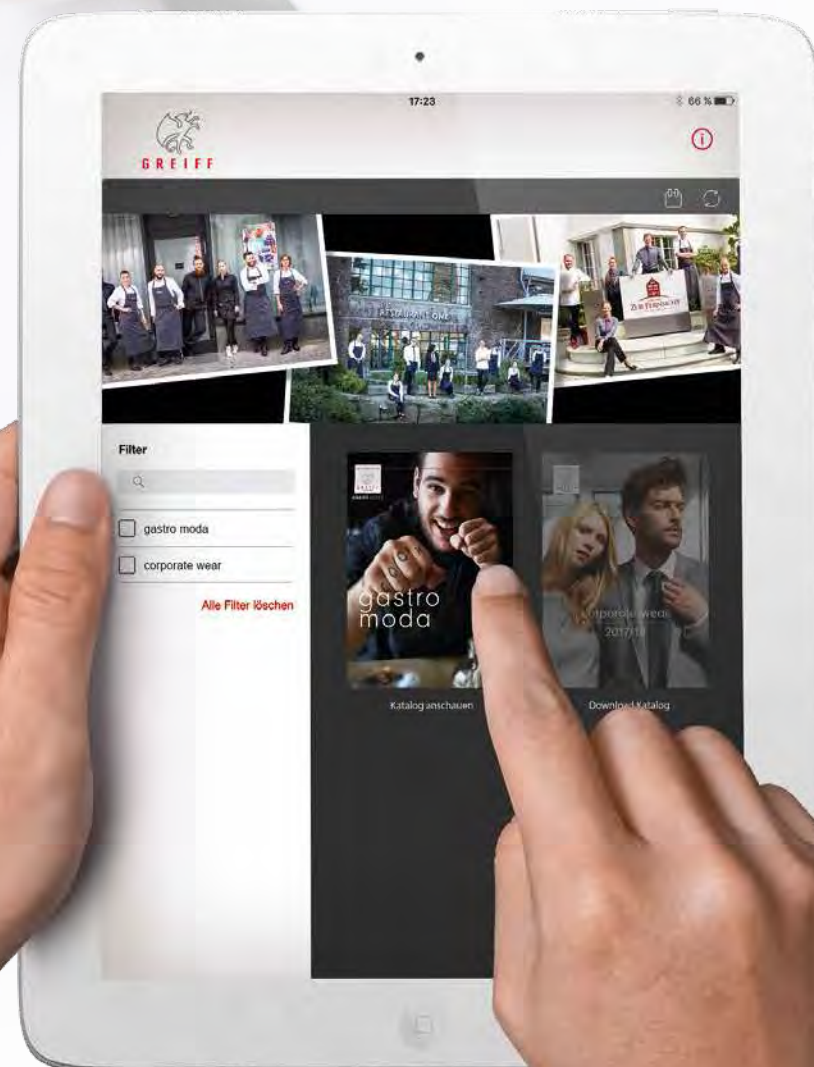

Catalogue now available as an app!

Downloading our new app makes it even easier. Instead of scanning each video individually in the catalogue, you will then have quick, clear access to all the videos and information about our products.

now available as GREIFF app

Here is the QR code to download the app:

gastro moda

Few sectors make tougher demands of clothing than the catering industry and the hotel business. This applies to both the garments worn by the kitchen team and those used by serving staff. High-quality workmanship and materials are therefore particularly important in these settings.

That is GREIFF's recipe for success. Our GASTRO MODA collection boasts excellence in its features, workmanship and easy-care properties, plus a range of fashionable designs and an extremely wide choice of styles. Whatever your taste, you're bound to find something you like.

We would like to take you on a little tour of European restaurants and their kitchens in this catalogue to show you just what a spectrum of tastes we cater for.

First stop: Nobelhart & Schmutzig, Berlin, Germany

The team at the restaurant Nobelhart & Schmutzig in Berlin is fanatical about using nothing but local ingredients. Owner Billy Wagner and his Executive Chef Micha Schäfer only use products that grows in the German capital or nearby, in Mecklenburg-West Pomerania, Brandenburg or the Baltic Sea. That means no pepper, no lemons and no chocolate, but plenty of tap water and a ten-course meal for everyone every day, known as "Mahlzeit". This approach to cooking is both radical and successful. Just a few months after it opened, Nobelhart & Schmutzig was awarded a Michelin star.

Second stop: Restaurant ONE, Roermond, Netherlands

The old factory building stood empty for over forty years. Graffiti from this period can still be seen on the walls, but otherwise the huge space has been transformed into an elegantly designed restaurant. This is where Executive Chef Edwin Soumang cultivates his "new Dutch cuisine". His wife Bethany DeLong is the restaurant host and provides the perfect wine for each dish as sommelier. In summer, diners can enjoy an aperitif on the idyllic terrace, which overlooks the river and the restaurant's own herb and vegetable garden. Anyone who would like a front-row view of Edwin and his team at work can sit at the Chef's Table in the kitchen instead of the main restaurant. This is the perfect place to experience the culinary skill which has deservedly held a Michelin star since 2010.

RESTAURANT ONE

ONE'S KRUIDENTUIN

GREIFF
SINCE 1802

Third stop: Gasthaus zur Fernsicht, Heiden, Switzerland

The terrace at Gasthaus zur Fernsicht in the Swiss municipality of Heiden offers a stunning view over nearby Lake Constance. But the venue's greatest attractions are its restaurant and its wine cellar. Executive Chef and Managing Director Tobias Funke is one of Switzerland's top chefs. He became Gault&Millau's youngest newcomer of the year in 2011 and was awarded 16 Gault&Millau points and a Michelin star. At his gourmet restaurant INCANTARE, he blends innovation with tradition. He calls the result "Swiss Alpine food". Tobias Funke works closely with selected local farmers, cheesemakers, and vegetable and fruit producers, who supply all of his ingredients. The culinary treat is rounded off by a wine cellar which is one of a kind. It contains some 1,000 different wines, just waiting to complement the dishes prepared by the chef and his team.

BENJAMIN MÄRZ

We introduced this young Michelin-starred chef from Bietigheim in Baden-Württemberg, Germany, in our last catalogue. He was so impressed by the quality of GREIFF clothing that he teamed up with us to develop his own chefs' jackets. We hope you'll love the results as much as we do.

PIA-ENGEL NIXON

Pia-Engel Nixon grew up in the Ruhr area of Germany and studied in Sydney. While she was Down Under, she also discovered a love of cooking. Soon, she opened her own restaurant in the Australian city. In Germany, she is known as a TV chef, often appearing alongside Frank Rosin, or for her live events entitled "Engels Küche". She also started running her own restaurant again recently - NIXON in Gelsenkirchen.

CARE:

CUSTOMISE YOUR GASTRO MODA.

We are happy to customise your clothing by embroidering your company name or adding your logo, either as embroidery or as a badge. If you choose this option, we ask you to send approved artwork as a PDF or JPEG. If you require a specific colour, please specify a Pantone, RAL or HKS code. Customisation is charged based on the number of garments to be personalised and the number of stitches needed to produce the embroidery or badge. One-off programming costs also apply, which are invoiced separately.

COOL-STRETCH

T400 is a more advanced LYCRA® fibre which has been specially designed to meet the requirements of professional clothing. The T400 fibre convinces by its optimal moisture management which transports moisture from the inside to the outside of the fabric. Its elasticity ensures a good fit. The fibre is crease-resistant, shows low shrinkage and is easy to clean. All in all, the product impresses by the best possible wearing comfort.

WATER AND DIRT REPELLENT

With this treatment, you protect your textiles against the challenges of everyday life, without any change to the natural appearance, breath ability or texture of the fabrics. Your textiles will be protected effectively against water and various types of soiling.

LYCRA

LYCRA® is a synthetic elastane fibre. It has unique elasticity and resilience. The LYCRA® fibre improves wear ability as well as fit, shape retention, durability and freedom of movement. This is achieved through the unique properties of the fibre, which can be stretched to seven times its original length. LYCRA® is a registered trademark of INVISTA.

COTTON

The International Cotton Emblem guarantees highest quality. It symbolises product characteristics such as great durability, good moisture absorption as well as excellent wear ability.

bügelfrei
non-iron

NON IRON COTTON

As a result of the special meshing of the cotton fibres, the fabric does not crease easily and the creases fall out practically by themselves after washing. The fibres dry quickly and are extremely easy-care, wicking moisture from the body to the outside of the fabric and ensuring perfect comfort.

•SANFOR•

SANFOR

The SANFOR fabric is mechanically shrunk on special machines. As a consequence, garments retain their shape and fit form with proper care even after being washed many times.

WASHING	BLEACHING	DRYING	IRONING	PROFESSIONAL TEXTILE CARE
normal process	any bleaching agent allowed	tumble drying possible, normal temperature 80° C	Iron at maximum sole plate temperature 200° C	professional dry cleaning, normal process
normal process	only oxygen, nonchlorine bleach allowed	tumble drying possible, lower temperature 60° C	Iron at maximum sole plate temperature 150° C	professional dry cleaning, mild process
mild process	do not bleach	do not tumble dry	Iron at maximum sole plate temperature 110° C	professional dry cleaning, normal process
normal process			do not iron	professional dry cleaning, mild process
mild process				do not dry clean
very mild process				
normal process				
mild process				professional wet cleaning, normal process
very mild process				professional wet cleaning, mild process
wash by hand maximum temperature 40° C				professional wet cleaning, gentle process
do not wash				do not wet clean

The dots indicate the severity as regards to temperature of the tumble drying process.

The dots indicate the severity as regards to temperature of the tumble hand iron.

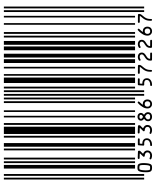

The letters within the circle specify the solvents that can be used.

The letter "W" within the circle specify the wet cleaning process.
