## QUALITIES

Water & Dirt Repellent

### WATER- AND DIRT-REPELLENT

This finish protects your clothes from the demands of everyday life without altering the fabrics' natural appearance, breathability or feel.

Stretch

### STRETCH

The synthetic elastane fibres used here boast unique elasticity and shape recovery. They can be stretched to up to seven times their original length. This results in improved comfort and fit, shape retention, durability and freedom of movement.

Bi-Stretch

### BI-STRETCH

This takes STRETCH one step further and makes your clothes even more comfortable to wear. This is thanks to the synthetic elastane fibres that are used both for the weft and warp of your fabric.

Thermo Regulating

### TEMPERATURE-REGULATING

The thermally regulating fibres used here keep you warm when it's cold and prevent you from getting into a sweat when the temperature rises. In a nutshell, this fabric protects you from fluctuations in temperature.

The multilayered materials used here were developed to offer you the best thermal comfort whatever the weather. They keep the wearer warm when it's cold and prevent them from getting into a sweat when the temperature rises.

Constant Body Temperature

### CONSTANT BODY TEMPERATURE

Say goodbye to perspiration and feeling chilly. These textiles feature the best fabric technology that the world of sport has to offer. The 37.5® technology absorbs the infrared energy emitted by your body and serves as a thermostat. When moisture forms, evaporation is accelerated to cool you down. And when there is no moisture present, the IR energy is stored to keep you warm. This maintains your body at the ideal temperature of 37.5 degrees.

Moisture Wicking

### MOISTURE-REGULATING

This fabric impresses with its optimum moisture management. It contains specially developed fibres that wick moisture away from the inside to the outside of the fabric. And thanks to their good breathability, the fibres also enhance your clothes' heat-regulating effect. The fibres are crease-resistant, boast low shrinkage and are easy-care. In addition, their elasticity results in a good fit and optimum wearability.

Machine Washable

### MACHINE-WASHABLE

No dry cleaning necessary – you can wash this fabric at home without any qualms if you follow our care instructions.

Denim

### DENIM

The characteristic and timeless denim material of these items stands out with its excellent durability and top wearability.

Non Iron

### NON-IRON COTTON

The special meshing of the cotton fibres means the fabric does not crease easily. As a result, creases fall out practically by themselves after washing. The fibres dry quickly and are extremely easy-care, wicking body moisture away to the outside of the fabric and ensuring optimum comfort.

100% Cotton

### 100% COTTON

Your item of clothing is made exclusively of cotton. This composition guarantees good moisture absorption and excellent wearability.

Easy Care

### EASY-CARE

It doesn't take much to enjoy pristine clothes. Various finishing technologies make your items especially hard-wearing, meaning regular washing and tumble-drying cycles do not pose a problem.

Recycled Materials

### RECYCLED MATERIALS

The polyester within this fabric is made entirely of recycled materials. The fibres were sourced from plastic bottles and fibre waste. This allows us to reduce the carbon, energy and water consumption caused when manufacturing your clothes.

## WE ARE PURSUING A SUSTAINABLE COURSE...

Want your employees to feel good about wearing their outfits in addition to the clothes being fashionable and functional?

**If so, you can't go wrong with GREIFF.** Responsible business is firmly enshrined in our corporate values. We can't achieve a great deal on our own, though. We are therefore especially proud to be pursuing our course with customers and suppliers who share our values.

We and our partners

- place the focus on people,
- meet top quality standards and
- use raw materials sparingly

Together with our partners of many years standing, we work towards becoming even fairer and even more sustainable.

## ...WITH FULL TRACEABILITY.

Where does the cotton used for my blouse come from? Where was my jacket sewn? The myGREIFF code allows you and your employees to determine where your clothes come from online whenever you want. **All it takes is a couple of clicks:**

We are a member of the Fair Wear Foundation (FWF). By enforcing this organisation's labour standards at our production facilities, we are continuously improving the local people's labour and social conditions.

Mitglied im Bündnis für nachhaltige Textilien  
Sozial und ökologisch – wir sind auf dem Weg

We belong to the Partnership for Sustainable Textiles, which was initiated by the German government in 2014. This serves as a platform for dialogue between industry players and the field of politics. Together with the other partners, we set goals to improve sustainability throughout the production chain.
