The next level in top dining experience

RAW DESIGN BY is the premium dinnerware collection of Stylepoint. It gives chefs from around the world access to exquisite and special designer tableware.

There are ceramic designers all over the world who create the most unique products in their studios. Usually these designers produce on a smaller scale. Stylepoint developed in collaboration with international ceramic designers a unique and exclusive line of tableware for the premium hospitality segment. This way, exclusive designs are now available in bigger quantities.

The story behind Kevala

Kevala produces handmade ceramic stoneware. Each piece is crafted as a thoughtful statement of contemporary design, realized through the heart and hands of their skilled artisans. Kevala is Sanskrit, meaning perfect, whole, and complete. And it's this simple idea that dictates the design philosophy behind all the ceramics this studio produces. Kevala designs specifically for high-end restaurants, the individual pieces can be tailored to meet specific presentation needs.

Kevala allows chefs to bring their creativity to the way they serve their delicious culinary creations.

Wendy: 'We have been making handcrafted ceramics for some of the world's top restaurants for the past 25 years. We understand that chefs want understated designs that showcase their culinary creations – where the food is the star, not the serving plate.'

The story behind RBC

RBC perceives design as an expression to communicate the story behind our uniquely handcrafted approach to transform humble stoneware clay into novelty tableware. Our philosophy is that all of our ceramics have to reflect true passion for design and to be different. We have been working with some of the best Michelin starred chefs and top hotels from around the world for the past 29 years. We understand that chefs want to have something different for presenting their creations and to keep exploring their creativity beyond the boundaries of

normative food presentation. This idea of bringing the food industry to the next level is boldly underlined in our new collection that we have designed.
