# Cutlery

## Sophisticated design, exceptional quality, extensive selection

The right cutlery can bring a whole new dimension to your tabletop. With Robert Welch, Folio, Varick, Laguiole and Adam Simha our specialist partners, we have designers of fine cutlery who perfectly mirror our own exacting standards.

By forging a partnership with these leading names we are able to bring you an exceptional choice of stylish cutlery for any style of venue. From elegant to modern, we have a comprehensive selection of designs to suit your needs. Crafted from either 18/10 stainless steel for optimum strength, high shine and excellent stain resistance, or 18/0 for the value-conscious operator, there is a cutlery collection to suit the ambience of any dining occasion.

# Robert Welch

Founded in 1955 by Robert Welch, Robert Welch Designs is a family run business based at Chipping Campden in the Cotswolds. Originally Robert Welch set up as a designer for industry from his workshop in Chipping Campden and from his base opened a shop to sell his own designs. Over the last fifteen years his family – Rupert Welch and Alice Welch (Directors) have expanded the business to supply hospitality customers with a multi award-winning collection of internationally renowned cutlery and tabletop items.

Robert Welch are hospitality experts with a genuine passion for the industry. Robert Welch understand that dining is much more than just eating. By treating it as the connection between the plate and the diner they create visually stunning, well-balanced cutlery that serves to elevate a diner's experience.

*Robert Welch*®

Inspired by the natural spiral of the fossil, the nautilus shell shaped Ammonite cutlery is a distinctive addition to any table.

# Honeybourne *Robert Welch*

Inspired by the traditional silversmith technique of planishing, the Honeybourne collection makes a tactile and light reflecting statement on the table. Featuring classic proportions of long tines and a traditional heel, the deliberately thin neck exaggerates the wide curves of the subtly textured handle. The feel in the hand is well-considered as the texture fades to smooth at the neck of each piece.

Sandstone cutlery by Robert Welch, features a unique 'stippled effect' which adds texture and tactility to the handles. Our Designers have added a subtle feature, by incorporating a gradual fading of the texture into the neck of each piece. Sandstone is a slender pattern and has a comfortable, 'soft feel' in the hand.

Westbury Bright cutlery is a geometrically inspired design, featuring an unusual angled v-shaped bolster on the knife. The tapered handles finish at a diamond point. Comfort in the hand is a Robert Welch Designs signature and whilst not an obviously curvaceous design, the finish of the pieces is smooth to the grip.

Ashbury is a classic pattern with a contemporary twist; the knives feature a fluid curve which creates a feeling of movement. The table knife is designed to be poised for use, resting vertically with the cutting edge raised from the table top. The classic styling of Ashbury forks and spoons contrasts against the modern silhouette of the table, dessert and steak knives, as the gentle kick up of the end of the fork and spoon handles presents a mirror image of the downward curve of the knife handle. Traditionally shaped knives are also available.

## Steak Knives

### High-quality knives

Adam's original knife designs are based on over 20 years of knife making, his own professional kitchen experience, and the custom knives he has built for working chefs. He provides service for these knives exclusively, giving him first hand feedback on every detail from material to blade shape to edge geometry, to hardness, to hardware.

"The knives I began making and enjoyed the most turned out to be knives for cooking, which brought me full circle back to the sphere of culinary arts." - Adam Simha.

## Features & Benefits

For every meal and culinary occasion there is the opportunity to add that extra individual touch. Cutlery pieces that are designed for specific purpose are details which can make a real difference.

### Robert Welch

Robert Welch cutlery collections feature enduring and timeless designs, designed for comfort. Beautifully balanced and weighted, all spoons and forks are made from the finest German 18/10 stainless steel. Knives are forged from a single ingot of especially hardened stainless steel in order to maintain a cutting edge.

The Award-winning Drift Barware collection has been designed to raise the bar and bring elegance to the bar, restaurant and to the table. All have been made from 18/10 stainless steel.

All Robert Welch patterns are covered by a lifetime warranty, giving you further confidence that your cutlery will withstand the test of time.

### Folio

Steelite's 18/10 Folio collections are exceptionally priced for value-conscious operators. Top-grade hand polishing provides a superior soft shine, while weight distribution and balance provides a comfortable feel when handling. Folio cutlery provides excellent stain and rust resistance, all the while being commercial dishwasher safe.

### Varick

Crafted from 18/0 stainless steel, Steelite's Varick ranges provide good strength, high shine and excellent stain resistance.

### Jean Dubost

Jean Dubost has been producing cutlery since 1920, their products are 100% produced in Thiers, France and they are committed to preserving traditional French know-how with a very reasonable carbon footprint. Each Laguiole steak knife is subject to a special firing process, providing ultimate blade flexibility.

### Adam Simha

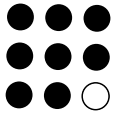

Each knife is hand crafted to a professional grade, perfectly balanced and made from 13/0 Stainless Steel (13% Chromium & 0% Nickel). The handle is made from recyclable lumber, resulting in a circular waste free process that's hard wearing.

A serrated blades provide an added benefit for rigorous cutting needs, whilst the non-serrated blade allows for a strong and steady pressure to glide through food with a clean cut.

## Care Guidelines for Stainless Steel Cutlery

- All Steelite and Robert Welch stainless steel cutlery ranges are dishwasher safe
- After use clean cutlery of leftovers and do not leave dirty for any length of time
- Cutlery must not be soaked or left damp for any length of time
- When cleaning in the dishwasher it is recommended that an upright basket is used to avoid rough handling and scratches
- Cutlery should be placed handle down for the best washing results
- Do not overload the basket as this will increase the risk of scratching, and will not allow the cutlery to wash properly
- Take the cutlery out of the dishwasher as soon as possible after the end of the cleaning process and hand dry if necessary
- If this is not possible open the door of the dishwasher so that moisture can evaporate. If the items are not completely dry then they should be hand dried.
- Stainless steel will rust if left damp for long periods - the term stainless steel means it stains less than other metals
- Cutlery will stain, pit or blacken if it comes into contact with the wrong cleaning chemical or if certain food products are not cleaned off effectively
